Monitor Your Water Consumption

Subscribe to Receive Leak Notifications and Access your Water Usage information online

• Know about leaks before they cause costly damage	• Set billing and usage thresholds, and never be surprised by a high bill again
• See exactly how much water your family is using each hour, day, month or quarter	• Access your account from any internet connected device

The City of Maumee Utility Billing is excited to announce we have contracted with AquaHawk. AquaHawk is a service that allows utility account holders to monitor water consumption. Once registered, account holders can do the following:

Receive timely leak alerts

You specify how you want to be contacted: email, text or telephone. When your consumption indicates abnormally high usage or a leak, AquaHawk will let you know!

Monitor your water consumption

See how much water you are using and an estimate of your bill anytime during the billing cycle. Empowers customers to take charge and make decisions.

Set your Threshold Alerts

Threshold alerts allow you to specify an amount of water (gallons) or a maximum amount ($) that you don't want your bill to exceed. If your consumption or your bill is trending to, or has exceeded the threshold value, AquaHawk will send you a notification.

Learn ways to save

Easily see the dates/times when you are using water. Learn effective ways to reduce water usage and save money!
